

0.1% Formic Acid in Water - Bag

Ready-to-Use Solutions | Acidified Mobile Phases

1. Specification scope

Product	0.1% Formic Acid in Water - Bag
CAS number	64-18-6
Grade scope	Controlled grade available on request
Document status	Reference specification summary

The values below are representative catalog specifications. Where several grades are listed, acceptance limits may differ by grade. The current controlled grade-specific specification agreed at quotation or qualification is the governing document.

2. Test requirements

Test item	Specification / reference value	Test method
Formic acid concentration	0.1% (v/v)	Approved method
Filtration	0.22 µm membrane filtered	Approved method
Packaging	Nitrogen-sealed collapsible aluminum foil laminate bag	Approved method
Shelf life	12 months (sealed)	Approved method

3. Packaging and release documentation

Package size	Container / format	Supply status
5L	Compatible container selected by product and grade	Available on request
10L	Compatible container selected by product and grade	Available on request
20L	Compatible container selected by product and grade	Available on request

Each released batch is supported by a batch-specific Certificate of Analysis. Packaging sizes are consolidated in this document; actual availability, closure system and minimum order quantity are confirmed with the quotation.

4. Document control notice

This downloadable file is a reference summary generated from the LANCHROM product catalog. Request the current approved specification, SDS and sample COA before method validation, supplier qualification, regulatory submission or

purchase release.
