

# Deuterated Chloroform (CDCl<sub>3</sub>)

High-Purity Solvents & Chemicals | Deuterated NMR Solvents

## 1. Specification scope

|                 |                                            |
|-----------------|--------------------------------------------|
| Product         | Deuterated Chloroform (CDCl <sub>3</sub> ) |
| CAS number      | 865-49-6                                   |
| Grade scope     | HPLC Grade                                 |
| Document status | Reference specification summary            |

The values below are representative catalog specifications. Where several grades are listed, acceptance limits may differ by grade. The current controlled grade-specific specification agreed at quotation or qualification is the governing document.

## 2. Test requirements

| Test item       | Specification / reference value | Test method     |
|-----------------|---------------------------------|-----------------|
| Isotopic Purity | ≥ 99.8 atom% D                  | Approved method |
| TMS Reference   | 0.03% v/v (standard)            | Approved method |
| Water Content   | ≤ 0.02%                         | Approved method |

## 3. Packaging and release documentation

| Package size         | Container / format | Supply status |
|----------------------|--------------------|---------------|
| 0.75mL × 10 ampoules | AMBER GLASS        | Available     |
| 25mL                 | AMBER GLASS        | Available     |
| 100mL                | AMBER GLASS        | Available     |

Each released batch is supported by a batch-specific Certificate of Analysis. Packaging sizes are consolidated in this document; actual availability, closure system and minimum order quantity are confirmed with the quotation.

## 4. Document control notice

This downloadable file is a reference summary generated from the LANCHROM product catalog. Request the current approved specification, SDS and sample COA before method validation, supplier qualification, regulatory submission or purchase release.
