

# Acetone for GC

High-Purity Solvents & Chemicals | GC Grade Solvents

## 1. Specification scope

|                 |                                 |
|-----------------|---------------------------------|
| Product         | Acetone for GC                  |
| CAS number      | -                               |
| Grade scope     | GC Grade                        |
| Document status | Reference specification summary |

The values below are representative catalog specifications. Where several grades are listed, acceptance limits may differ by grade. The current controlled grade-specific specification agreed at quotation or qualification is the governing document.

## 2. Test requirements

| Test item           | Specification / reference value                    | Test method      |
|---------------------|----------------------------------------------------|------------------|
| Grade/Performance   | High purity , No residue peaks , Low boiling range | Specification    |
| Product Scope       | GCgrade , No residue peaks                         | Catalog          |
| Available Packaging | 1L, 4L, 20L                                        | Catalog          |
| Documentation       | CoA/SDS/TDS available on request                   | Document control |

## 3. Packaging and release documentation

| Package size | Container / format                                 | Supply status        |
|--------------|----------------------------------------------------|----------------------|
| 1L           | Compatible container selected by product and grade | Available on request |
| 4L           | Compatible container selected by product and grade | Available on request |
| 20L          | Compatible container selected by product and grade | Available on request |

Each released batch is supported by a batch-specific Certificate of Analysis. Packaging sizes are consolidated in this document; actual availability, closure system and minimum order quantity are confirmed with the quotation.

## 4. Document control notice

This downloadable file is a reference summary generated from the LANCHROM product catalog. Request the current approved specification, SDS and sample COA before method validation, supplier qualification, regulatory submission or

purchase release.
