

ICH Q3D Class 2A Element Standard Mix (Co, Ni, V)

Reference Standards & Analytical Reagents | ICH Q3D Elemental Impurity Standards

Certified 3-element standard for ICH Q3D Class 2A elements - cobalt, nickel, vanadium - the elements with high probability of occurrence in drug substances and products, requiring assessment regardless of route.

1. Product identity and grade scope

Product name	ICH Q3D Class 2A Element Standard Mix (Co, Ni, V)
CAS number	-
Molecular formula	-
Molecular weight	-
Available grades	HPLC Grade
Product category	ICH Q3D Elemental Impurity Standards

2. Recommended applications

- 01 ICH Q3D(R2) risk assessment - Class 2A elements
- 02 Catalyst residue screening (Ni, Co from hydrogenation)
- 03 Stainless steel equipment leaching studies
- 04 ICP-MS/ICP-OES calibration

3. Physical and handling information

Appearance	Confirm in the current grade-specific specification
Storage conditions	Follow the current Safety Data Sheet and approved product label
Shelf life	Confirm for the selected grade and packaging format

4. Consolidated packaging options

Package size	Container / format	Supply status
100mL	HDPE	Available
500mL	HDPE	Available

All listed packaging sizes are consolidated in this TDS. Final container material, closure, minimum order quantity and availability depend on product compatibility, grade and destination market.

5. Storage, safety and documentation

Store in the original tightly closed compatible container under the conditions stated in the current Safety Data Sheet. Protect from incompatible materials and sources of ignition where applicable.

Transport reference: Confirm in current SDS | Hazard class: Confirm in current SDS

Available documents: Product Specification, current Safety Data Sheet, and batch-specific Certificate of Analysis. Contact the LANCHROM technical team for the controlled revision required for qualification or purchasing.

Important: This technical data sheet summarizes product information available in the catalog. It is not a Certificate of Analysis and does not replace the current grade-specific controlled specification or Safety Data Sheet.
