

Amino Acid Fermentation Analysis Kit

Life Science & Workflow Kits | Laboratory Workflow Kits

1. Specification scope

Product	Amino Acid Fermentation Analysis Kit
CAS number	-
Grade scope	USP Grade
Document status	Reference specification summary

The values below are representative catalog specifications. Where several grades are listed, acceptance limits may differ by grade. The current controlled grade-specific specification agreed at quotation or qualification is the governing document.

2. Test requirements

Test item	Specification / reference value	Test method
Grade/Performance	One-stop laboratory use Analysis, Includes test method and reagents	Specification
Product Scope	laboratory use · laboratory use · laboratory use + Sugars	Catalog
Available Packaging	1 set	Catalog
Documentation	CoA/SDS/TDS available on request	Document control

3. Packaging and release documentation

Package size	Container / format	Supply status
1 kit	Compatible container selected by product and grade	Available on request
1 set	Compatible container selected by product and grade	Available on request

Each released batch is supported by a batch-specific Certificate of Analysis. Packaging sizes are consolidated in this document; actual availability, closure system and minimum order quantity are confirmed with the quotation.

4. Document control notice

This downloadable file is a reference summary generated from the LANCHROM product catalog. Request the current approved specification, SDS and sample COA before method validation, supplier qualification, regulatory submission or

purchase release.
