

ATP Fluorescence Hygiene Rapid Detection Kit

Life Science & Workflow Kits | Laboratory Workflow Kits

ATP Fluorescence Hygiene Rapid Detection Kit for Food, PharmaceuticalsWorkshop. Rapid hygiene testing , 10minute results.

1. Product identity and grade scope

Product name	ATP Fluorescence Hygiene Rapid Detection Kit
CAS number	-
Molecular formula	-
Molecular weight	-
Available grades	USP Grade
Product category	Laboratory Workflow Kits

2. Recommended applications

01 Food

02 PharmaceuticalsWorkshop

3. Physical and handling information

Appearance	Confirm in the current grade-specific specification
Storage conditions	Follow the current Safety Data Sheet and approved product label
Shelf life	Confirm for the selected grade and packaging format

4. Consolidated packaging options

Package size	Container / format	Supply status
50piece	Compatible container selected by product and grade	Available on request
box	Compatible container selected by product and grade	Available on request

All listed packaging sizes are consolidated in this TDS. Final container material, closure, minimum order quantity and availability depend on product compatibility, grade and destination market.

5. Storage, safety and documentation

Store in the original tightly closed compatible container under the conditions stated in the current Safety Data Sheet. Protect from incompatible materials and sources of ignition where applicable.

Transport reference: Confirm in current SDS | Hazard class: Confirm in current SDS

Available documents: Product Specification, current Safety Data Sheet, and batch-specific Certificate of Analysis. Contact the LANCHROM technical team for the controlled revision required for qualification or purchasing.

Important: This technical data sheet summarizes product information available in the catalog. It is not a Certificate of Analysis and does not replace the current grade-specific controlled specification or Safety Data Sheet.
