

Fermentation QC Starter Kit

Life Science & Workflow Kits | Laboratory Workflow Kits

1. Specification scope

Product	Fermentation QC Starter Kit
CAS number	-
Grade scope	HPLC Grade
Document status	Reference specification summary

The values below are representative catalog specifications. Where several grades are listed, acceptance limits may differ by grade. The current controlled grade-specific specification agreed at quotation or qualification is the governing document.

2. Test requirements

Test item	Specification / reference value	Test method
Contents	0.005N H ₂ SO ₄ mobile phase 5L · pH buffer standards · Sample vials × 100	Approved method

3. Packaging and release documentation

Package size	Container / format	Supply status
Kit (mobile phase + standards)	FLEX BAG	Available

Each released batch is supported by a batch-specific Certificate of Analysis. Packaging sizes are consolidated in this document; actual availability, closure system and minimum order quantity are confirmed with the quotation.

4. Document control notice

This downloadable file is a reference summary generated from the LANCHROM product catalog. Request the current approved specification, SDS and sample COA before method validation, supplier qualification, regulatory submission or purchase release.
