

# GMP Disinfection Solvent Kit

Life Science & Workflow Kits | Laboratory Workflow Kits

## 1. Specification scope

|                 |                                 |
|-----------------|---------------------------------|
| Product         | GMP Disinfection Solvent Kit    |
| CAS number      | -                               |
| Grade scope     | USP Grade                       |
| Document status | Reference specification summary |

The values below are representative catalog specifications. Where several grades are listed, acceptance limits may differ by grade. The current controlled grade-specific specification agreed at quotation or qualification is the governing document.

## 2. Test requirements

| Test item | Specification / reference value            | Test method     |
|-----------|--------------------------------------------|-----------------|
| Contents  | 75% Ethanol (USP) 1L · 70% IPA (USP) 500mL | Approved method |

## 3. Packaging and release documentation

| Package size       | Container / format | Supply status |
|--------------------|--------------------|---------------|
| Kit (2 components) | HDPE               | Available     |

Each released batch is supported by a batch-specific Certificate of Analysis. Packaging sizes are consolidated in this document; actual availability, closure system and minimum order quantity are confirmed with the quotation.

## 4. Document control notice

This downloadable file is a reference summary generated from the LANCHROM product catalog. Request the current approved specification, SDS and sample COA before method validation, supplier qualification, regulatory submission or purchase release.
