

# GMP Disinfection Solvent Kit

Life Science & Workflow Kits | Laboratory Workflow Kits

Ready-to-deploy cleanroom and equipment disinfection set combining 75% ethanol and 70% IPA for GMP manufacturing areas.

## 1. Product identity and grade scope

|                   |                              |
|-------------------|------------------------------|
| Product name      | GMP Disinfection Solvent Kit |
| CAS number        | -                            |
| Molecular formula | -                            |
| Molecular weight  | -                            |
| Available grades  | USP Grade                    |
| Product category  | Laboratory Workflow Kits     |

## 2. Recommended applications

- 01 GMP cleanroom disinfection
- 02 Equipment surface sanitization
- 03 Aseptic processing area cleaning

## 3. Physical and handling information

|                    |                                                                 |
|--------------------|-----------------------------------------------------------------|
| Appearance         | Confirm in the current grade-specific specification             |
| Storage conditions | Follow the current Safety Data Sheet and approved product label |
| Shelf life         | Confirm for the selected grade and packaging format             |

## 4. Consolidated packaging options

| Package size       | Container / format | Supply status |
|--------------------|--------------------|---------------|
| Kit (2 components) | HDPE               | Available     |

All listed packaging sizes are consolidated in this TDS. Final container material, closure, minimum order quantity and availability depend on product compatibility, grade and destination market.

## 5. Storage, safety and documentation

Store in the original tightly closed compatible container under the conditions stated in the current Safety Data Sheet.  
Protect from incompatible materials and sources of ignition where applicable.

Transport reference: Mixed - see SDS | Hazard class: Class 3

Available documents: Product Specification, current Safety Data Sheet, and batch-specific Certificate of Analysis.  
Contact the LANCHROM technical team for the controlled revision required for qualification or purchasing.

Important: This technical data sheet summarizes product information available in the catalog. It is not a Certificate of Analysis and does not replace the current grade-specific controlled specification or Safety Data Sheet.
