

# Tetrahydrofuran (THF)

High-Purity Solvents & Chemicals | Pharmaceutical Grade Solvents

Tetrahydrofuran (THF) for Pharmaceuticals, Organic synthesis, Chromatography. Pharmaceutical or industrial grade available, high purity, low water content.

## 1. Product identity and grade scope

|                   |                               |
|-------------------|-------------------------------|
| Product name      | Tetrahydrofuran (THF)         |
| CAS number        | -                             |
| Molecular formula | -                             |
| Molecular weight  | -                             |
| Available grades  | Food Grade / USP Grade        |
| Product category  | Pharmaceutical Grade Solvents |

## 2. Recommended applications

- 01 Pharmaceuticals
- 02 Organic synthesis
- 03 Chromatography

## 3. Physical and handling information

|                    |                                                                 |
|--------------------|-----------------------------------------------------------------|
| Appearance         | Confirm in the current grade-specific specification             |
| Storage conditions | Follow the current Safety Data Sheet and approved product label |
| Shelf life         | Confirm for the selected grade and packaging format             |

## 4. Consolidated packaging options

| Package size | Container / format                                 | Supply status        |
|--------------|----------------------------------------------------|----------------------|
| 25L          | Compatible container selected by product and grade | Available on request |
| 200L         | Compatible container selected by product and grade | Available on request |

All listed packaging sizes are consolidated in this TDS. Final container material, closure, minimum order quantity and availability depend on product compatibility, grade and destination market.

## 5. Storage, safety and documentation

Store in the original tightly closed compatible container under the conditions stated in the current Safety Data Sheet. Protect from incompatible materials and sources of ignition where applicable.

Transport reference: Confirm in current SDS | Hazard class: Confirm in current SDS

Available documents: Product Specification, current Safety Data Sheet, and batch-specific Certificate of Analysis. Contact the LANCHROM technical team for the controlled revision required for qualification or purchasing.

Important: This technical data sheet summarizes product information available in the catalog. It is not a Certificate of Analysis and does not replace the current grade-specific controlled specification or Safety Data Sheet.
