

pH 7.00 Buffer Standard

Reference Standards & Analytical Reagents | Physicochemical Calibration Standards

1. Specification scope

Product	pH 7.00 Buffer Standard
CAS number	-
Grade scope	Controlled grade available on request
Document status	Reference specification summary

The values below are representative catalog specifications. Where several grades are listed, acceptance limits may differ by grade. The current controlled grade-specific specification agreed at quotation or qualification is the governing document.

2. Test requirements

Test item	Specification / reference value	Test method
pH value (25°C)	7.00 ± 0.01	Approved method
Temperature coefficient	Specified on CoA	Approved method
Color coding	Green (per DIN)	Approved method
Traceability	Traceable to NIST/PTB	Approved method

3. Packaging and release documentation

Package size	Container / format	Supply status
250mL	Compatible container selected by product and grade	Available on request
500mL	Compatible container selected by product and grade	Available on request

Each released batch is supported by a batch-specific Certificate of Analysis. Packaging sizes are consolidated in this document; actual availability, closure system and minimum order quantity are confirmed with the quotation.

4. Document control notice

This downloadable file is a reference summary generated from the LANCHROM product catalog. Request the current approved specification, SDS and sample COA before method validation, supplier qualification, regulatory submission or purchase release.
