

# TLC Visualization Reagent Kit

Chromatography & Sample Preparation | TLC / HPTLC Products

## 1. Specification scope

|                 |                                 |
|-----------------|---------------------------------|
| Product         | TLC Visualization Reagent Kit   |
| CAS number      | -                               |
| Grade scope     | HPLC Grade                      |
| Document status | Reference specification summary |

The values below are representative catalog specifications. Where several grades are listed, acceptance limits may differ by grade. The current controlled grade-specific specification agreed at quotation or qualification is the governing document.

## 2. Test requirements

| Test item           | Specification / reference value                                  | Test method      |
|---------------------|------------------------------------------------------------------|------------------|
| Grade/Performance   | One-stoplaboratory usesetlaboratory use , Containslaboratory use | Specification    |
| Product Scope       | laboratory use/laboratory use/laboratory use                     | Catalog          |
| Available Packaging | 1set                                                             | Catalog          |
| Documentation       | CoA/SDS/TDS available on request                                 | Document control |

## 3. Packaging and release documentation

| Package size | Container / format                                 | Supply status        |
|--------------|----------------------------------------------------|----------------------|
| 1set         | Compatible container selected by product and grade | Available on request |

Each released batch is supported by a batch-specific Certificate of Analysis. Packaging sizes are consolidated in this document; actual availability, closure system and minimum order quantity are confirmed with the quotation.

## 4. Document control notice

This downloadable file is a reference summary generated from the LANCHROM product catalog. Request the current approved specification, SDS and sample COA before method validation, supplier qualification, regulatory submission or purchase release.
