

Trace Analysis Grade Nitric Acid 65%

High-Purity Solvents & Chemicals | Trace Analysis Chemicals

Ultra-pure 65% nitric acid for ICP-MS sample digestion with sub-ppb metal content

1. Product identity and grade scope

Product name	Trace Analysis Grade Nitric Acid 65%
CAS number	7697-37-2
Molecular formula	HNO ₃
Molecular weight	63.01
Available grades	Contact technical sales
Product category	Trace Analysis Chemicals

2. Recommended applications

- 01 ICP-MS sample digestion
- 02 ICP-OES sample preparation
- 03 Semiconductor material analysis
- 04 Environmental heavy metal testing

3. Physical and handling information

Appearance	Confirm in the current grade-specific specification
Storage conditions	Follow the current Safety Data Sheet and approved product label
Shelf life	Confirm for the selected grade and packaging format

4. Consolidated packaging options

Package size	Container / format	Supply status
500mL	Compatible container selected by product and grade	Available on request
1L	Compatible container selected by product and grade	Available on request

All listed packaging sizes are consolidated in this TDS. Final container material, closure, minimum order quantity and availability depend on product compatibility, grade and destination market.

5. Storage, safety and documentation

Store in the original tightly closed compatible container under the conditions stated in the current Safety Data Sheet. Protect from incompatible materials and sources of ignition where applicable.

Transport reference: UN2031 | Hazard class: 8

Available documents: Product Specification, current Safety Data Sheet, and batch-specific Certificate of Analysis. Contact the LANCHROM technical team for the controlled revision required for qualification or purchasing.

Important: This technical data sheet summarizes product information available in the catalog. It is not a Certificate of Analysis and does not replace the current grade-specific controlled specification or Safety Data Sheet.
